

ML Interactive Kiosk 730 with touchscreen

Kiosk modular design enables disassembling into three sections and fitting into special transportation box.

FEATURES

- Semi-aluminium housing. Easy to disassemble into three sections and pack to special transportation box.
- Large touchscreen with 10-point touch capability
- Secure lockable metal chassis
- Intel® NUC PC module with Intel® Core™ i3 and i5 Processors
- Low power consumption (less than 100 W)
- Special kiosk software Sitekiosk and virtual keyboard

OPTIONAL FEATURES

- **Different technology and size touchscreens.** Possible to order with different touchscreen technology – PCAP or infrared touch sensors. Different sizes: 32" / 40" / 42" / 43".
- **Branding.** Lot of options to meet your brand style design – custom colours, custom labelling with optional details.
- **Dual-Screen.** Possible to order with additional digital signage screen.
- **Transportation box with wheels.** This model can be used as portable model on fairs and workshops.
- **Connectivity.** Optional wireless network connectivity options (WiFi, LTE) with vandal proof external antenna to provide kiosk connectivity in all possible locations.
- **Computer.** Intel® NUC computer module ensures smooth and fast user experience for detail rich graphics. PC can be configured to meet performance requirements set by application used.
- **Kiosk software.** Sitekiosk software for operating and maintaining public access kiosks with virtual on-screen keyboard.
- **Kiosk monitoring.** Siteremote running in Cloud (SaaS) or on own server (license) for remote administration and maintenance of kiosk systems and digital signage displays
- **Security.** The housing is suited for unattended self-service. Housing can be anchored to floor and is securely lockable with single key.
- **Optional devices.** This model can be equipped with RFID, 2D/3D, scanner, smart card reader or other devices at request.

ABOUT US

We are in kiosk production from 1999. Our production and product development process is certified to meet ISO 9001:2015 requirements. We are proud to design our kiosks in-house keeping in mind both aesthetic and functionality.
