

MOAI

Description

This double-sided outdoor multimedia totem is characterized by a water-resistant metal frame, with a double opening equipped with a hydraulic rod for easy maintenance. Also, thank you thanks to an innovative ventilation system, the totem is protected from any damage caused by overheating. The 6 mm laminated vandal-proof glass guarantees protection and resistance over time. Equipped with two high resolution and high brightness screens that make your contents clearly visible even in direct sunlight. Operation time 24/7.

- CUSTOMIZATIONS -

WRAPPING

Wrapping is a technique that allows you to change the color of the product by applying a covering film made upon customer request. It is the right choice if you want customization with particular logos and patterns.

WEBCAM

You can choose to install a webcam on monitors and multimedia totems from the Moai line. In particular, it is required in cases where a facial recognition or motion tracking system is used. It allows you to create personalized communication for the user.

SPEAKERS

If you wish, you can install audio speakers on all monitors and Moai totems. This option it is recommended if you want to use your Digital Signage to play video or audio content.

MICROPHONE

You can add a microphone to the monitors and multimedia totems of the Moai line. Useful if you use voice control or recognition features, such as in the case of virtual assistants.

CARD READERS

Barcode, QRcode and Smartcard readers can be implemented on monitors or totems for use in different sectors. Both to provide additional information on products or places but also for the management of technical and logistical processes.

- OPTIONS -

Installation

If you request this option, our specialized technicians will go on site to proceed with the installation of the monitors and totems you have purchased. No matter where you are, our LocalService network is present throughout Italy.

Maintenance

This option includes 2 ordinary maintenance interventions (one every 6 months). Interventions that include cleaning the air filter, checking the correct functioning of the system and checking the efficiency of the air conditioner (where present). This ensures a long life of the totem over time.

Warranty on site

This option requires that, in the event of a malfunction, a technician travels to the place where the monitor is installed to carry out the repair on site.

1 year warranty extension

The warranty which includes the replacement and repair of non-functioning components is extended for a further year. This does not include on-site intervention. The product must be sent to us and then once repaired it will be returned to you.

- CONTENTS -

Player

The monitors and totems of the Moai line are sold without a content management system. You can add it for a one-time cost, choosing from the 3 options below.

If you would like a more structured Digital Signage solution (with an annual fee), contact the sales team for more information on VisionboxPro.
