

MOAI

Description

Moai Extreme Smart is the new multimedia kiosk in our range, designed specifically for outdoor environments. Entirely conceived and manufactured by us, it combines a 100% Italian design, patented by Visionbox.it, with an ultra-robust structure capable of withstanding any weather conditions. We have designed this model to ensure unbeatable visibility even in direct sunlight: it features a 4000-nit 4K touchscreen with IK10 protection, ensuring consistently sharp images and maximum protection against vandalism. Furthermore, Moai Extreme Smart is packed with smart technology for simplified management: Total protection in all weather conditions, Security and Intelligent Control.

43" _ 845.98 mm
55" _ 997 mm

43" _ 235.50 mm
55" _ 250 mm

- CUSTOMIZATIONS -

RAL PAINTING

With RAL painting you can give the steel box the color you prefer so that it integrates perfectly into the place where it will be installed. You have a wide choice among all the available RAL codes.

WRAPPING

Wrapping is a technique that allows you to change the color of the product by applying a covering film made upon customer request. It is the right choice if you want customization with particular logos and patterns.

WEBCAM

You can choose to install a webcam on monitors and multimedia totems from the Moai line. In particular, it is required in cases where a facial recognition or motion tracking system is used. It allows you to create personalized communication for the user.

SPEAKERS

If you wish, you can install audio speakers on all monitors and Moai totems. This option is recommended if you want to use your Digital Signage to play video or audio content.

MICROPHONE

You can add a microphone to the monitors and multimedia totems of the Moai line. Useful if you use voice control or recognition features, such as in the case of virtual assistants.

CARD READERS

Barcode, QRcode and Smartcard readers can be implemented on monitors or totems for use in different sectors. Both to provide additional information on products or places but also for the management of technical and logistical processes.

- OPTIONS -

Installation

If you request this option, our specialized technicians will go on site to proceed with the installation of the monitors and totems you have purchased. No matter where you are, our LocalService network is present throughout Italy.

Warranty on site

This option requires that, in the event of a malfunction, a technician travels to the place where the monitor is installed to carry out the repair on site.

1 year warranty extension

The warranty which includes the replacement and repair of non-functioning components is extended for a further year. This does not include on-site intervention. The product must be sent to us and then once repaired it will be returned to you.

- CONTENTS -

Player

The monitors and totems of the Moai line are sold without a content management system.

You can add it for a one-time cost, choosing from the 3 options below.

If you would like a more structured Digital Signage solution (with an annual fee), contact the sales team for more information on VisionboxPro.
